

SIP THIS SEPTEMBER!

Raise funds to find the cure for paralysis

Almost every single day in Australia, someone has their life changed forever by a spinal cord injury.

More than 15,000 Australians are currently living with a spinal cord injury with an estimated 300 to 400 new cases each year.

Your fundraising will support ground breaking research here in Australia

You don't have to run a marathon, or even break a sweat, just drink all your beverages through a straw and fundraise.

Register now and get your friends and family involved or simply make a donation at sipweek.com
