

COLLECT EVIDENCE AND UPLOAD FROM THE FIELD

AXON CAPTURE
No more wires and SD cards

CARRY LESS. CAPTURE MORE.

Digital Photos | Audio Recordings | Cell Phone Videos

Axon Capture is a mobile application built specifically for law enforcement that allows officers to capture digital evidence right from the field. The application eliminates the need to carry multiple devices for photo, video and audio recording. Instead, it uses the capabilities of the smartphone already in your pocket and adds the security and organization needed to protect truth. You can add tags, titles or GPS coordinates to any recording before uploading the data to Evidence.com, without leaving anything on your phone.
