## EXPERIENCE

### Freelance Designer + Developer

May 2020 - Present

Collaborate with client organizations on web projects; design + built websites and provide support and maintenance for existing websites

### Project Lead | Scout Studio (student-led design agency)

Boston, MA | Jan 2020 - June 2020

- Led a team of 5 designers and developers in the creation of Scout's new website via branding exercises, roadmapping, and delegating sprint tasks
- Developed the site using Prismic (headless CMS), Gatsby.js, React.js, and styled components

### Studio Designer & Developer | Scout Studio

Boston, MA | Fall (Sept-Dec) 2018 + 2019

Collaborated in teams; designed + developed the marketing website and web platform for the startup, BusRight, and built a custom Shopify template for publishing company, Mango & Marigold Press

### Software Engineer Co-op | OppenheimerFunds

New York, NY | Jan - July 2019

- Created new UI features and resolved bugs on an in-house, smart document management desktop + mobile app utilized by portfolio managers using React & React Native JS
- Collaborated with UX designer and implemented a Google Analytics tagging plan via Firebase
- Added to the React-based reusable component library
- Wrote e2e UI automation tests using Cypress

### iOS Development Co-op | Bose Corporation

Framingham, MA | Jan - June 2018

- Prototyped an automation testing app using Sketch to be used by the QA Team to test a Bluetooth LE product's firmware
- Built the prototyped iOS app using Swift and XCode, resulting in faster automation
