7 23 March	Rest day	5km steady walk and stretch	Any other activity and stretch	5km steady walk and stretch	Stretch	Rest day	Event day

Walk days

Start by just getting into the habit of walking regularly, mix long walks with short walks. Try increasing your speed just a little each time you do a short walk. Try interval training, alternating walking fast and slow to increase stamina.

Other activities

Try any other activity to help increase your stamina and fitness such as swimming, dancing, spin, kick boxing or pilates. Enjoyment is the deciding factor! Start off with 15 minutes and build up your time. Choose whatever you enjoy, but make sure you always increase your heart rate.

Rest days

Take a rest from aerobic activity but spend 5-10 minutes a day having a good stretch. The more you do the more you will want to do and you will really notice a difference with your walking and flexibility.
